GUIDELINES

- Be in a quiet area. No distractions, like roommates, animals, televisions, children.
- If (when) you are transferred to voice mail, know what you are going to say.
- If you are caught off guard and don't know what to say (shame on you!!), then hang up and don't leave a message.
- SMILE when you talk.
- Begin with your name and that they should have received your package
- Don't say too much...people are too busy and they won't listen.
- Say when you will call back and invite them to call you at your phone number.
- Say your number again.
- Wish them a great day. SMILE.
- CALL BACK AT THE TIME YOU TOLD THEM.

DISCLAIMER

In the video game design industry, numbers and emails are difficult to find. Developers who give out such information get spammed with tech and bug questions, and so recommend scrubbing that data from the net. In such cases, I have written "NA", but have left room for if I discover it/am gifted it later on.
